Project 1 Instructions

Mark out of 100 / Weight: 10%
Late penalty 20% per day

Overview

For this project you are required to create a single webpage. The layout of the page must follow one of the 2 supplied wireframes below coded with divs & floats. The topic of the page is yours choice but can not be a brand or an existing site of any kind (i.e McDonalds or Nike) and all colours and images used must match your topic and be relevant to your design.
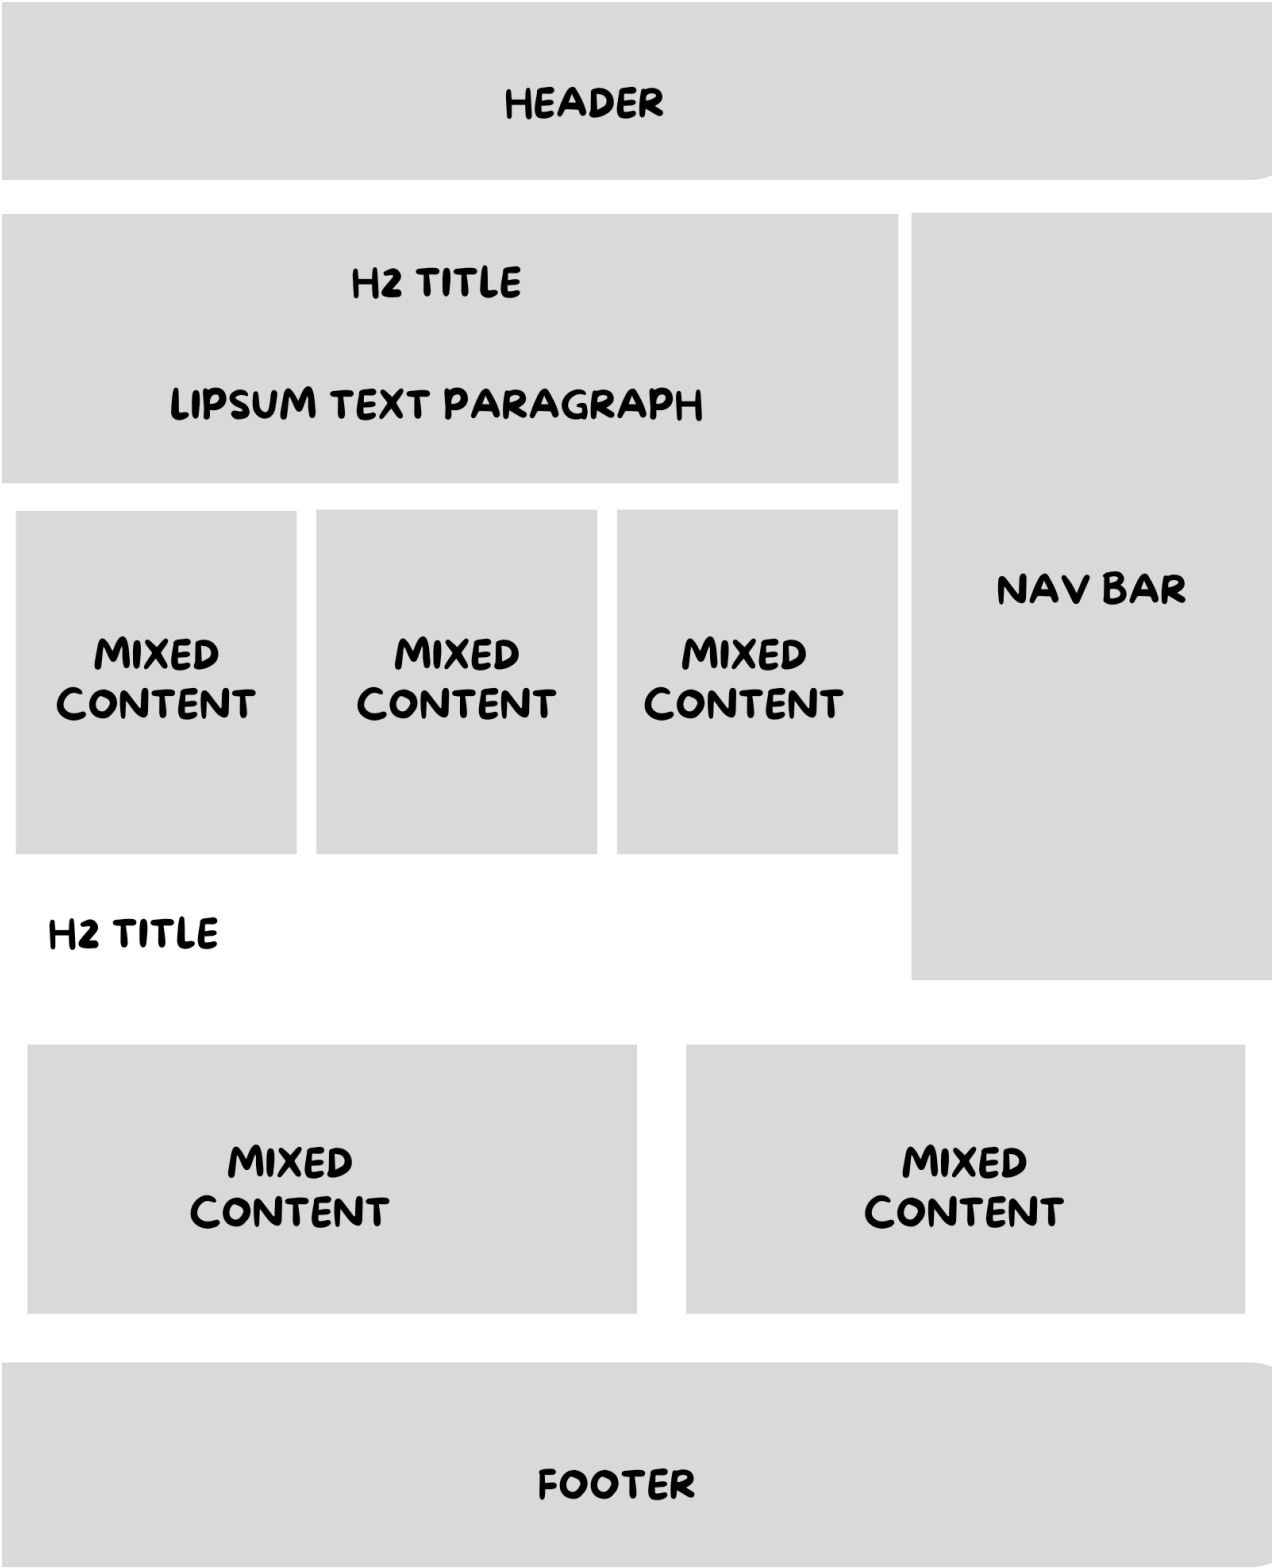

The page should have proper use of colours, images and white space. Mix content boxes should have a title, lipsum text and use of images, background colours or images, icons etc. These boxes should have more than just text and should not use a copy paste design format where all boxes are identical and just the content and images are swapped.

THIS MUST BE CODED BY YOU FROM SCRATCH AND CAN NOT USE ANY PREVIOUS ASSIGNMENTS, WORK, FRAMEWORKS, AI OR ONLINE TEMPLATES.

It must adhere the following criteria:

- Adhere to one of the 2 wireframes supplied (30%)
- Utilizes all the taught accessibility tools and code (15%)
- External style sheet only and no errors in CSS (10%)
- Images have no distortion, proper file size and royalty free and cited (10%)
- Utilizes semantic code and validates without errors (10%)
- Content is not copy and pasted and unique between rows and has proper white space (20%)
- Addition of 1 Google font (5%)
